

West International is looking for participants for a brand-new TV program!

West International is a brand-new weekly television program to be broadcast on RTV West From 26th January 2009.

Produced by Starsound Productions, the program is aimed at expats and international oriented people/families who are living and working in The Hague and surrounding areas. We will cover lifestyle, culture, sports, interviews, entertainment and practical advice about city life in The Netherlands. We will also ask several international citizens to share their experiences of their time in The Netherlands.

Selling Off

Each week we will interview a person/family who will soon be leaving The Netherlands. What will they take with them? And what will be left behind? What will they miss about being here? What are they glad to be leaving behind? We will also offer the possibility to sell items via the TV program and online platform to the highest bidder!

Suprise

Every two weeks a person or family will be surprised by friends or colleagues. Together with our team we will discuss what will be the best surprise. For example: theatre tickets and a nanny for the parents who rarely get to go out, a relaxed day in a beauty farm for a busy mum/wife/boss, a touring day in a cabrio for the car enthusiast, meeting a famous footballer for the soccer fan, etc.

At Home

Each week we visit an international family/person and, together with the presenter, they will cook a typical meal or dish from their country of origin. During the cooking the person/family will be interviewed about their experiences within The Netherlands. How easy is it to adjust to the Dutch Culture? What do you really think about Dutch Cuisine? Where can you get the food from your home country?

Do you want to participate in one of these items? Or do you know someone? Please let us know! Send us an email to redactie@starsoundproductions.com or call 070 365 27 21
